

SPECIAL OLYMPICS BASEBALL CLINIC

On April 9, 2016, the Oriole Advocates Challenger Baseball committee (OACB) and the Eastern Women's Baseball Conference (EWBC) teamed up to host a Spring Training baseball clinic.

Forty-five athletes joined the EWBC players as they worked on their baseball skills. After a warm up, players practiced at stations focusing on hitting, throwing and fielding as well as game situations. The athletes were honored with medals and the day was capped off with a visit from the Oriole Bird! The heart and determination displayed by these athletes was inspiring to all.

Challenger Baseball provides children and adults with mental and/or physical challenges an opportunity to enjoy the experience of playing baseball. Supporting leagues, teams and players in Maryland, Southern Pennsylvania and Northern Virginia, in 2015 the OACB provided program opportunities to over 1000 area players and works to help assure every person, regardless of their challenges, has the opportunity to play ball!

Thank you to our friends at OACB for this wonderful experience.
